24 HOURS

Ball grinding mill,
Whessoe Limited.

Main Line oil pump.
Weir Pumps Limited.

The Phillips Norway Group's Eldfisk oilfield in the North Sea.

THE COMPANY
We are a medium sized company manufacturing industrial fasteners which has built its reputation on the ability to supply a very wide range of items on a short delivery basis. The addition of sophisticated hot-forging and thread-rolling machinery has broadened our activities so that there is now virtually nothing in the fastener line we cannot offer.

THE SERVICE
Firstly you tell us the delivery and, like a lot of other companies, we offer that delivery. Unlike others, we keep to it. You are always quoted immediately; on the telephone – while you hold, in writing – by return post, by telex – within the day. Our office hours are long but it doesn't stop there. We have a rota system for key people so that we are available for emergencies throughout the day and night, 24 hours a day, every day of the year. We shall also be pleased to comply with any wishes you may have on documentation. We deliver the goods by whatever means you want.

MATERIALS
Mild steel, high tensile – grades R S T V X, 8.8, 10.9, 12.9, 14.9; B5, B6, B7, B8 (all gradesl, B16, B17B, EN24, EN25, Monel 400 and K500, titanium, Inconel, Incoloy, Zirconium, Zircalloy, aluminium, aluminium bronze, brass, nylon, plastic, Durehete, Esshete, Jethete, Nimonic, tantalum, Hastelloy, nickel, phosphor bronze, F V 520B, Ferralium,cupro-nickel.

Mortlake Brewery, Watneys London Limited.

QUALITY
The companies who have been kind enough to permit us to use their photographs are amongst the valued list of customers who have demanded not only first class service but also a high degree of quality and they have been able to depend for these on HAGUE FASTENERS. We are officially approved by various bodies which we should be pleased to demonstrate to you. Our machinery is suitable for the tightest of tolerances and we can, of course, supply full chemical and physical analyses of any of the goods which we manufacture. Our expertise with the more difficult materials, platings, and heat treatments is second to none in the trade.
