ANY FASTENER ANYTIME ANYWHERE FAST!

ANY FASTENER, ANY THREAD, ANY MATERIAL ANYWHERE ANYTIME!

Hague Fasteners are a privately owned company which was incorporated in 1974. We are manufacturers and stockists of all types of threaded fasteners in many different types of material.

We specialise in the more difficult to obtain fasteners, i.e. the items not readily available from general fastener stockists. We stock the items above and beyond a stockists standard range both in size and material and can manufacture any item that you cannot buy off the shelf.

Our large stocks of bar material, semi finished items and finished products valued at over £3 million, enable us to offer Standards and Difficult Standards on a very short lead time, in hours if required.

The **'H.F. BREAKDOWN SERVICE'** provides your buyers and engineers with an unrivalled delivery service where we can reduce costly downtime of your production plant and machinery.

Whatever item you want we can help you.

ANY FASTENER, ANY THREAD, ANY MATERIAL, ANYWHERE, ANYTIME.

Tell us your exact requirements and we shall meet them.

hexagon bolts
hexagon setscrews

We can supply any type of hexagon bolt or setscrew – metric or imperial

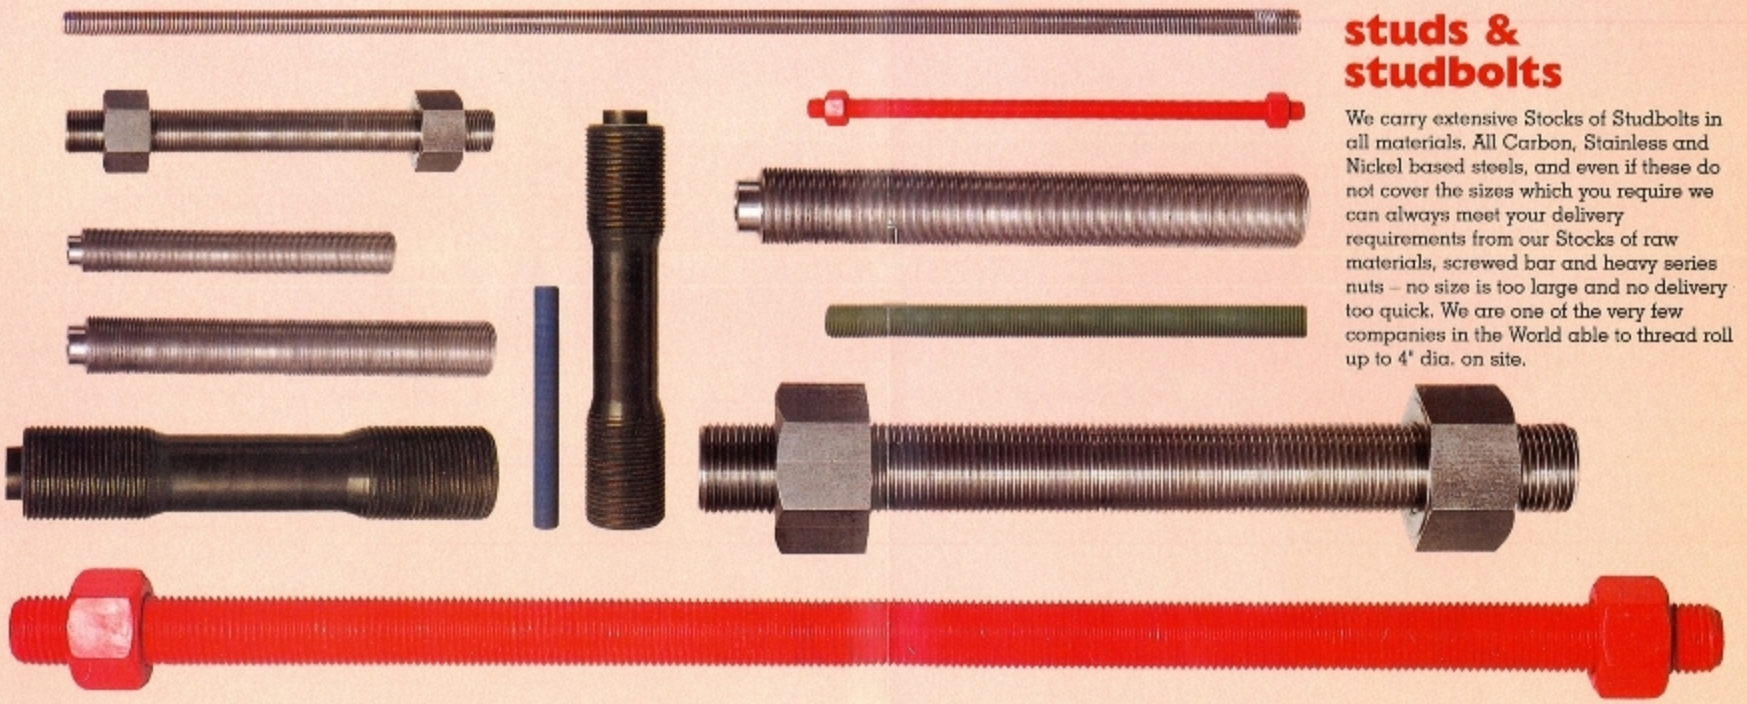

We specialise in heavy series bolting to ANSI, ASTM & BRITISH STANDARDS, with any thread form – BSW, BSF, UNC, UNF, UNS, metric etc.

All materials:
HIGH TENSILE CARBON ALLOYS
STAINLESS STEELS
NICKEL BASED ALLOYS
HEAT RESISTING STEELS

Long lengths, short lengths and bolts made to your unique company design. We can hot forge on site upto 4" dia. and can quickly produce our Forge Tooling to manufacture items that you require.

Whatever you need, we can supply. Call us with your next enquiry.

HEXAGON BOLTS

studs & studbolts

We carry extensive Stocks of Studbolts in all materials. All Carbon, Stainless and Nickel based steels, and even if these do not cover the sizes which you require we can always meet your delivery requirements from our Stocks of raw materials, screwed bar and heavy series nuts – no size is too large and no delivery too quick. We are one of the very few companies in the World able to thread roll up to 4" dia. on site.

STUDS

socket screws

We manufacture and Stock all types of Socket Screws: – Capscrews – Countersunk – Button Head – Shoulder Screw or Any Socket driven fastener you need.

nuts

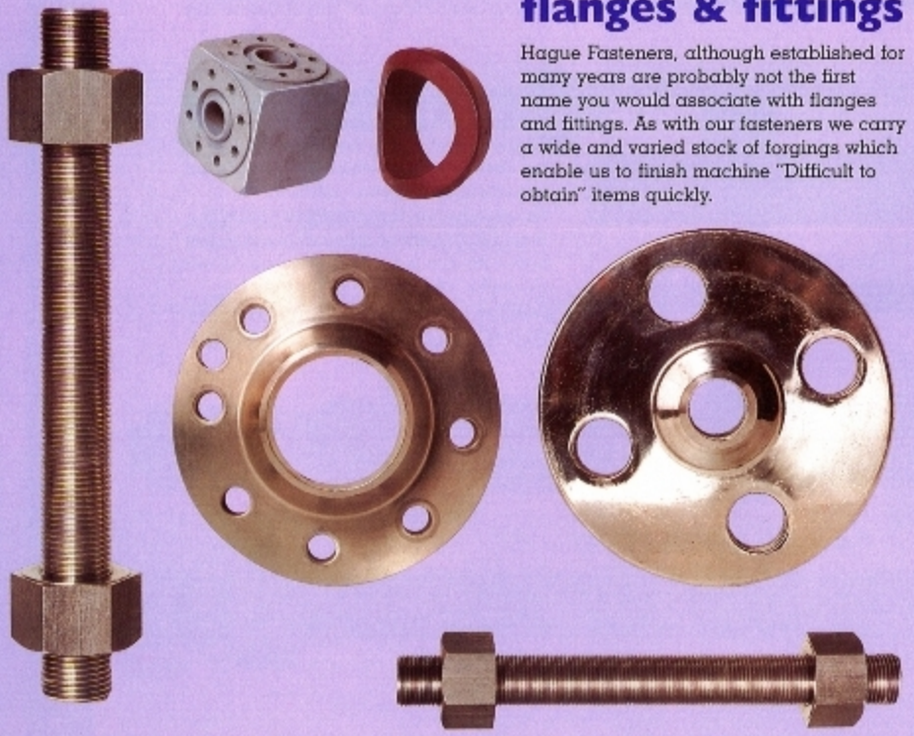

As Specialist Manufacturers we are often called upon to supply many different types of nuts in a wide range of materials.

ALL MATERIALS including:
ASTM A194 grades, 2H, 4, 7, 3, 8, 8M, 8T etc.
A2 & A4 Stainless
Hiduron, Monel, etc.

flanges & fittings

Hague Fasteners, although established for many years are probably not the first name you would associate with flanges and fittings. As with our fasteners we carry a wide and varied stock of forgings which enable us to finish machine "Difficult to obtain" items quickly.

special fasteners

We have the facilities to manufacture any type and shape of fastener in a very wide size range and by a variety of methods. Whatever your requirements we can assure you of First Class Quality and prompt delivery. Our strict quality assurance, wide range of raw materials and technical expertise will provide the answer to any fastener problems you may have.

SPECIAL FASTENERS

STEEL BARS, HEAT TREATMENT, ANALYSIS

heat treatment

On-site Heat Treatment
To further enhance our high quality and fast turn-around service we have our own on-site heat treatment facility. We keep all manufacturing processes in house guaranteeing our total control at all times to meet our delivery promise.

steel bars

Pressure from our customers has persuaded us to make available for general sale our vast and varied Steel Stock. We have over £2 million of steel in stock in all grades of Stainless Steel, Carbon Steel, Heat Resisting Grades, Nickel Based Alloys, Rounds, Hexagons or Flats.
CALL OUR STEEL SALES DEPARTMENT NOW!

analysis

Spectrometer Metal Analysing
In order to guarantee the quality and specification of materials used in manufacturing our wide range of products, we have made a substantial financial investment in a spectrometer (metal analysing machine).
We are are now able to check the test certificates we receive from Steel Mills against the steel actually delivered eliminating all risk of interior material being supplied from Hague Fasteners.
